Competitors

Botanic Boutique-Organic Products and Instagram based

Brands like- Hira Ali Beauty, Spa In a Bottle, Co-naturals, Bk hair oil with similar products-elixirs, essential oils they all pose threat to BB

- Exhaustive list
- Saturated Market
- Old, well-established Brands
- Wide product Ranges
- Higher reach
- Broader customer base
- Loyal customers
- High marketing budgets
- Extensive data on customer
- Customer loyalty programse

Young Customer Acquisition and retention is the key-for long-term growth.

Swot Analysis

Strengths

- Long term nature of product
- Price point & customer loyalty
- Organic
- Eyelash oil wand
- Price display
- Male skincare products

Weaknesses

- Lack of newly acquired customers
- Lack of brand awareness
- Reliance on external party for delivery

Opportunities

- Introduce face masks
- Personalized products
- Focus more on male hair/ skin care products

Threats

- Unreliability of social media pages
- Competitors

Buying Roles

Initiator

- Self-care/as a routine
- Acne
- Dry-skin
- Hair problem

Influencer

- Reviews
- Price
- Quality
- Word of Mouth
- Ingredient lists

Consumer Buying Behaviour

Few Differences Between Brands

There are various competitors such as Hira Ali Beauty for skin and Connaturals for hair which sell the exact same products, you have hair growth oils present in both brands, hence skin and hair care isn't a very diverse field, thus we can say that their are few differences between brands

High Customer Involvement

Before purchasing a certain skin and hair care product, most new customers go through various pages, and reviews before finalsing, this is because skin and hair care products are risky by nature, As Asad said in the focus group ', I usually go to my trusted and tried brands', even our survey results strengthened this as almost 50% of respondents searched for more than one hour before actually purchasing the product

DISSONANCE REDUCING BUYING BEHAVIOUR

Infrequent Purchase

Skin and hair care products arent something you buy often, they are bought after careful evaluation and consulting friends and family. Thus these goods are bought infrequently, after 4-5 months once the product is finished

Low Brand Switching

Usually if you are satisfied with a certain skin and hair product, you would not change it as trying and testing a new product is risky. Majority of our focus group partcipants agreed that they dont change their skin and hair product brand if they are comfotable with it and it suits them

Research Methodology

Primary

Methods

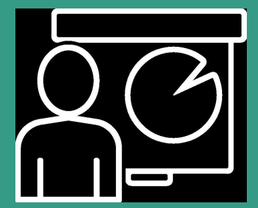

- **Observation**
  - Experimentation
  - Field Research
  - Social Listening
- **Interviews** - Onwers of BB and Consumer Shahbano
- **Focus Groups**
- **Questionnaire Survey**

Limitations

- Social desirability bias
- Personal Biases
- Ethical Concerns
- Time Constraints

Research Methodology

Secondary

Methods

- **Literature Review**
- **Company's own Financial Data** - Sales
- **Company's Social Media Insights**
- **Competitor** - Benchmarking

Limitations

- Lack of Relevance
- Lack of Accuracy
- No up-to-date

Observation Insights

Experimentation

Positives

- Appealing Color Pallet
- Photography and a natural green theme
- Body Language
- Product Variety

Negatives

- Reviews and influencer marketing cannot be trusted in skin care
- Lack of "Human Element"

> I'd rather go with a product that my family has used or that I've heard about through word of mouth. I wouldn't go with influencers since their skin is different from mine, so I'd rather go with a tried-and-tested brand recommended by someone I know because our skin types might be more comparable

AHMED RAO, A student at Lums

Participants in both Focus Groups agreed to this statement

STORE VISIT

- Customers who came to a retail store to buy competitor products had been devoted customers for a long time and were only there to buy the products they desired.
- Their customers experiment less and rely on these products

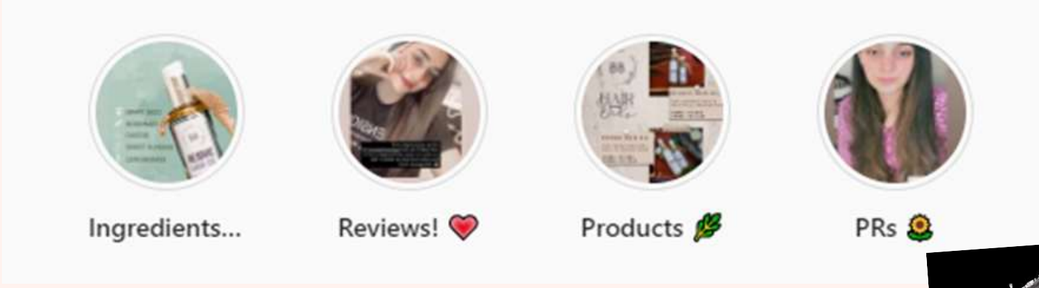

SOCIAL LISTENING

- Not many comments under posts
- Social media content was less engaging and they need to work on creating a more interactive page.

Focus Group Insights

Online vs Instore

- Preferred in store shopping
- concept of risk
- Impact of covid-online sales inc

Word of Mouth

- Recommendations by friends and family are a big factor
- Risky hence wish to use tried and tested products

Reviews

- Highlights on Instagram
- Big determining factor
- Enhances credibility

> "I read reviews online. I choose very specifically after reading the reviews" — Masooma

Social Media Influencers

- Separate highlight for PRs, post reviews by Instagram bloggers
- Mixed opinion
- Paid, hence not honest
- However some said 'know what they are doing'

Focus Group Insights

Price

- Lower prices than competitors, also have sales often
- High involvement products
- Quality played more important part than price

Product Variety

- Preferred having wide range of options
- Suited to all needs

Packaging

- Packaging plays a very important role
- Impacts the overall consumer experience
- Very delicate and attractive yet strong packaging

Page Aesthetics and Followers

- More followers-credibility
- Vibe of the page is a subtle yet fun, followin
  theme and specific colour pallete of mint
- Natural and organic element
- Participants liked the aesthetic
- Didnt like how human element m

Evening (4:00pm-8:00pm)	Exercise, snack time, movies/shows, family time, socialize, work, household stuff, shop, outdoor activities, drive, sports	Friends, family, workout, media, trends, events	Facebook, Instagram, snapchat, WhatsApp, YouTube, ms teams, radio, tv/cable, game applications, email, health apps, netflix, amazon prime, tiktok
Night (8:00pm-12:00am)	Dinner, drive, family time, socialise, movie/show,sports, sleep	Pending activities, planning next day, the whole day, food to eat, place to visit, recreational activity	Facebook, Instagram, snapchat, WhatsApp, YouTube, ms teams, radio, tv/cable, game applications, email, health apps, netflix, amazon prime, tiktok

Customer Journey Map

Awareness

Word of mouth and sponsored posts on instagram

Consideration

Price, Ingredients, Reviews, queries, comparisons

Purchase

Orders, gets first feel of product on delivery, uses it

Retention/Post-Purchase

Quality compliance, beneficial, better than other product,value for money

Advocacy

Refer to friends, family etc and talk about the product quite often-word of mouth

Secondary Research Insights

Literature Review

- Excellent Customer Service
- High Social Media Engagement
- User Generated Content & Credibility

Competitors

- A lot of Customer Reviews Content
- Addressing Common Hair & Skin Problems
- High Social Media Engagement
- Influencer Marketing

Botanic Boutique's Internal Data

- About 70% of total sales are from Hair Oils
- 22.7% Essential Oils
- Client Reviews have highest engagement
- Less Followers

Recommendations

Social Media content & Engagement

They should engage with the customers using different activities like insta-lives, contests with gift hampers and also add posts highlighting the importance of hair and skin care. Brand name is important for 50.9% when selecting a brand
This can be done by regular content posting, boosting insta posts

Customer Experience

Real-time package location tracking, SMS shipment alerts, and email notifications on replenished goods and new product listings all help to improve the customer experience. Also, listing best selling products on the page to help consumer.

Create a website

Social media pages are not that reliable when it comes to online businesses and most customers prefer placing orders on websites because they consider them more reliable.

Recommendations

Campus ambassadors

Moreover we recommend botanic boutique to recruit ambassadors from various schools and universities, these individuals will help promote the product in the institution and in return will get free products. Thi will be effective as it targets our target population of busy gen z consumers who don't have time for skin and hair care

Retail Expansion

67.9% prefer In Store Purchase
Alfateh, Carrefour, Imtiaz Superstore

Focus on Reviews

Helps in Wining Trust (77.5% in survey)
They should Add human element to insta page

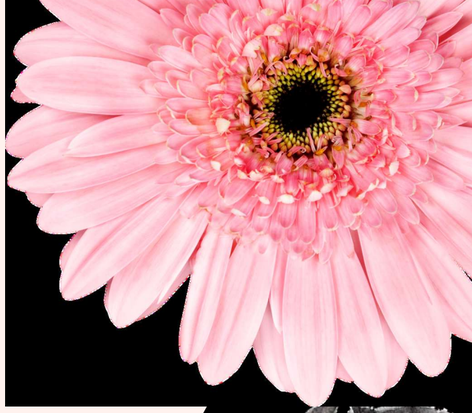

Recommendations

Complaint Portal & Pro-active approach

BB doesn't have any complaint portal and it is very essential to address the complaints of the customers on time. We recommend them to take a proactive approach and make a complaint portal on their website and social media pages as well. Follow-up phone calls to ensure Customer Satisfaction. Some customers do not just complain so using metrics like NPS, customer churn rate, CSAT is very important

Thank you
