WHO WE ARE

Larana Company is a full-service growth consultancy founded in 2019, helping ambitious brands turn fragmented marketing efforts into one coordinated engine. We combine strategy, design, and data to deliver measurable outcomes, not just deliverables.

Our Vision

To become the most trusted growth partner for mid-market brands across the region, known for work that compounds over time.

Our Mission

To pair sharp strategic thinking with hands-on execution, so every client sees results in their pipeline, not just their inbox

Brand Strategy

Sharp positioning and messaging that makes your brand the obvious choice in a crowded category

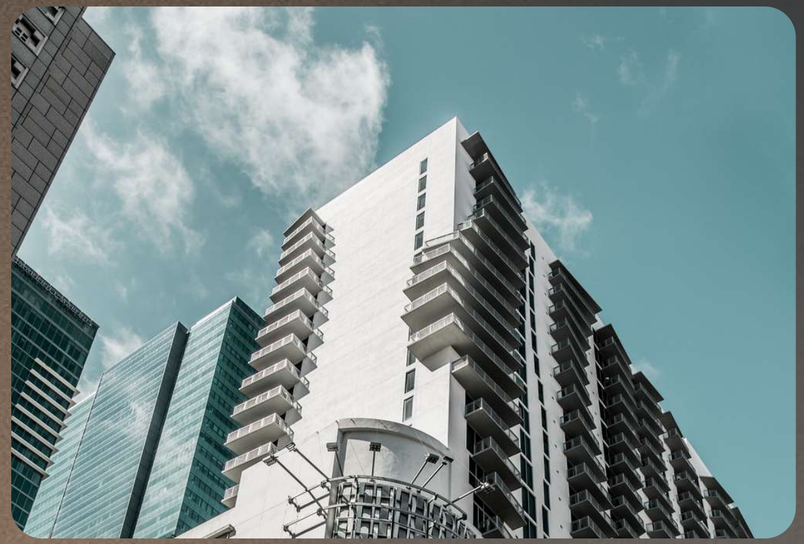

Creative Design

Campaign-ready visual systems built to perform across paid, organic, and lifecycle channels.

OUR PERFORMANCE

Results compound: clients who work with us for more than one year see retention and pipeline growth accelerate as our understanding of their business deepens

60%

of our client base has worked with us for two or more consecutive years, well above the agency industry average

WHAT'S NEXT FOR US?

We're opening a second studio to serve clients across new time zones, launching a self-serve analytics dashboard, and doubling our performance-marketing team by Q3 2027

Our next chapter is funded through a mix of reinvested profit and a planned growth facility, keeping full ownership with the founding team.
